What is the HUD-VASH Program?

HUD–VASH represents a partnership between the Department of Housing and Urban Development (HUD) and the Department of Veterans Affairs (VA). The program is designed to help Veterans who are homeless, find and maintain safe affordable permanent housing in the community.

VASH (VA Supportive Housing) is a case management program that offers a HUD Section 8 “Housing Choice” rental assistance voucher to eligible Veterans.

The primary goal of HUD-VASH is to help Veterans and their families successfully move out of homelessness. The program is designed to improve Veteran’s mental and physical health, enhance the Veteran’s ability to remain in their home or to pursue homeownership, and integrate into their local community.

Commonly Asked Questions

- **What is a VASH case manager?**
  VASH case managers provides one-on-one support to program participants. You and your case manager will develop an individualized service plan to help you achieve and maintain permanent housing, as well as assist you in meeting personal goals (i.e. going back to school or homeownership). Your case manager also connects you with VA and community resources (i.e. referral for counseling or utility assistance) when needed.

- **How long can I participate in VASH?**
  As long as you are income eligible and benefiting from the program. However, some Veterans have a goal of homeownership and take advantage of the HUD Family Self-Sufficiency Program.

- **What happens if I lose my job or my income increases?**
  Your rent is ALWAYS income based. In the event of any changes notify your case manager and the housing authority immediately and your rent will be adjusted accordingly.

- **What if I have a felony?**
  The VASH program is designed to help Veterans from various walks of life. A felony does not make you ineligible for the VASH program. *The ONLY legal matter that makes a Veteran ineligible for VASH is if he or she is listed on a life time registry for sex offenses.

- **What if I don’t have a problem with drugs?**
  There is absolutely no requirement to have a drug history for participation in VASH. For the Veteran that has an alcohol or drug problem, treatment is available prior to admission and throughout participation in the VASH program.
